

How to Update Google Chrome

How to update Google Chrome on Windows 10 and MacOS

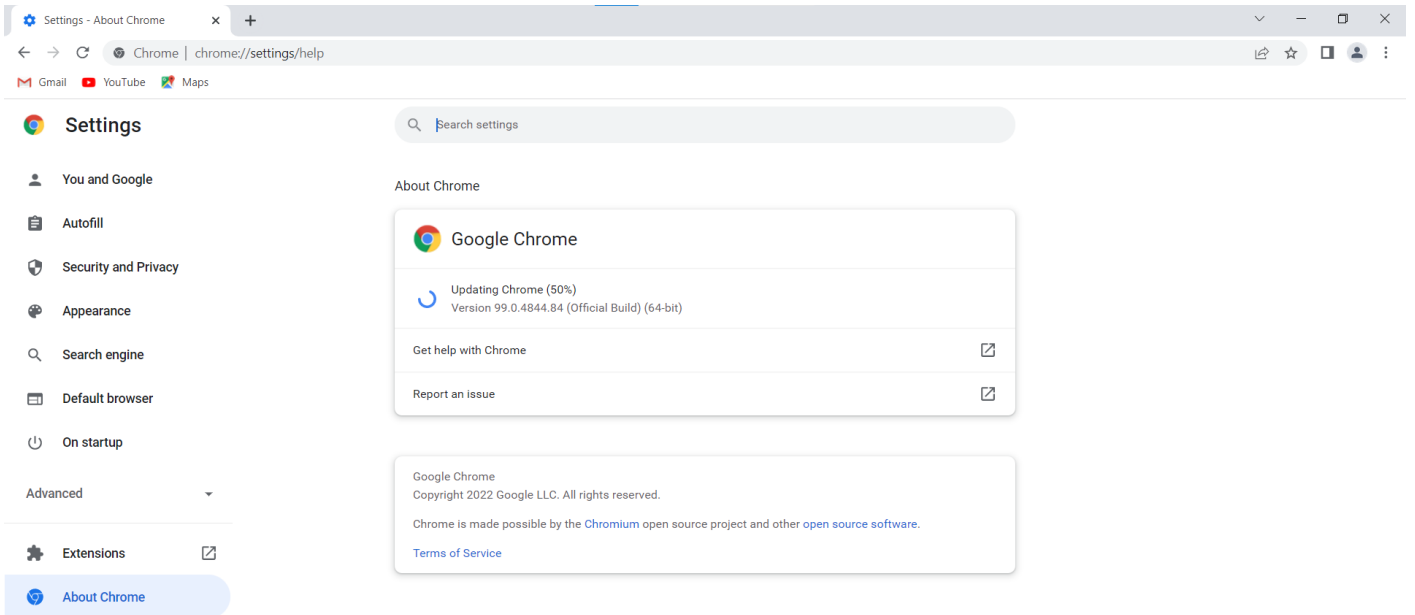

- Open the Google Chrome web browser if you have not done so already.
- Click on the more button (three vertical dots on the top right corner of the web page).

- Hover over the help option.
- Click About Google Chrome in the new menu.

- If an update is available, click Update Google Chrome (If the button is not available, it means that you are already up to date).

- Click Relaunch. **Please ensure that all important web pages are properly saved and closed before proceeding with this step.**
