

# Purchasing Web Domains

If you are interested in paying for a web domain dedicated to a church event, ministry, or other related subject {Examples of this would be like jrcamp.org, allinallout.org, gameday.org, lovebarberton.org/lovebarberton.com} *please do not purchase the domain yourself*, especially if it is a website. Please ask Grace IT to help you purchase it. Grace IT is in charge of managing and financing these internet domains owned by the church and cannot manage them if we didn't purchase them.

In addition, in order to transfer a domain to our Grace IT domain management account, we will have to coordinate with you some steps about the process and ensure that certain conditions are met to successfully make a transfer, including paying a transfer fee and making sure 60 days have passed since the domain was bought.
